### **1.2 DATA INTEGRITY**

The statistics, tables and graphs contained in this document are based on substantiated cases, which are active investigations of an incident that has definitely happened. This is as opposed to using incident data, which is an initial recording of a crime that has yet to be substantiated.

The reader of the following pages should not rely on the data provided for comparison purposes over time, or for any reason. The BPS assumes no liability for any decisions made or actions taken or not taken by the user in reliance of this document. Any use of the document for commercial purposes is prohibited.

### **1.3 EXPLANATION OF GRAPHS**

The graphs used in this report include standard deviation, which has been used as a means of objectively measuring how much the crime rate has varied over time and is useful in identifying extreme highs and lows of crime. Standard deviation has been used so that where the crime rate is above the red line (2 standard deviation above the mean average), it is considered exceptionally high. Where the crime rate is below the blue line (2 standard deviation below the mean average), it is considered exceptionally low. In both cases it can be referred to as statistically significant (high or low) and is an indication of whether the quarterly statistics are exceptionally high or exceptionally low.

### **1.4 AIM**

The aim of this report is to produce accurate, timely, objective information that:

- Enables informed decisions to be made on the types of crime that threaten the safety of the community.
- Is used to proactively manage risks to the island and ensure effective policing, redeploying and directing resources at a strategic and tactical level, as required.
- Facilitates effective and open communication with our stakeholders, developing the means to inform them of the plans, efforts and progress being made by the BPS.
- Provides meaningful information as one of the means of reassuring communities in Bermuda.

However the overall 5 year trend shows a **decrease** in all categories. A summary of the 3 key crime headings and 20 crime categories for Q1 2013 in comparison to the previous quarter (Q4 2012), the same quarter last year (Q1 2012) and the 5 year trend is shown below in figure 1:

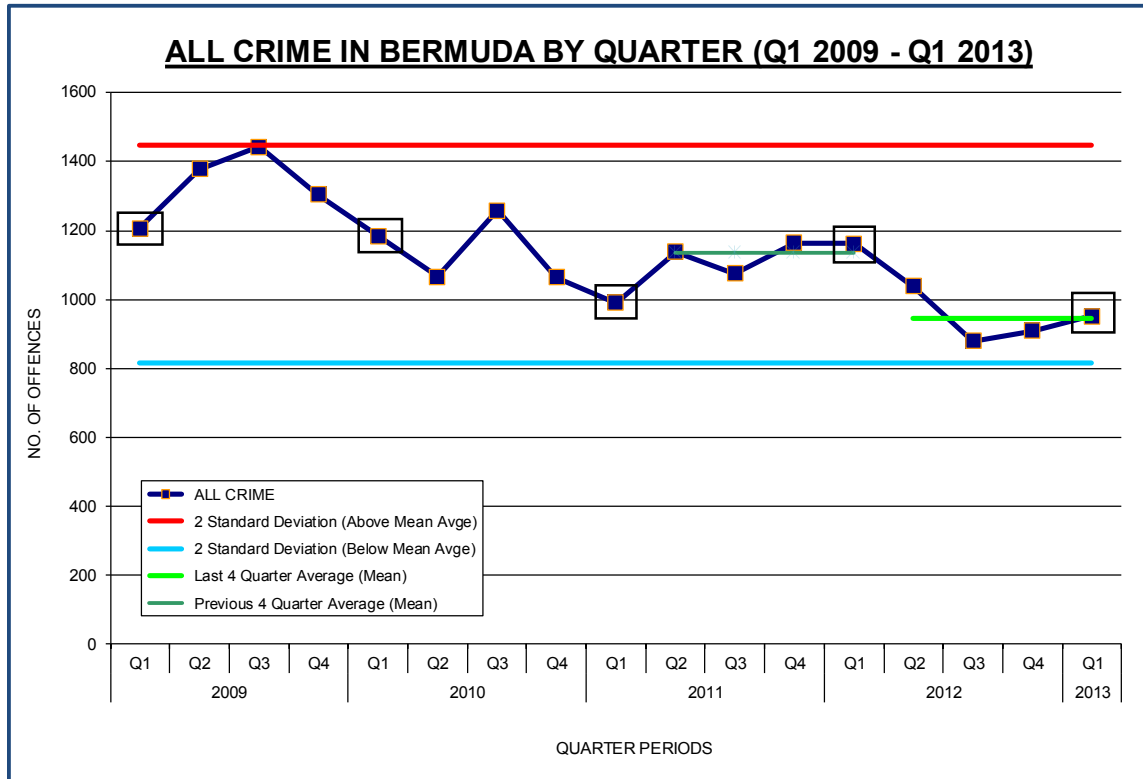

Figure 2: All Crime (Last 5 Quarter comparison Q1 2012 – Q1 2013)

	2012 Q1	2012 Q2	2012 Q3	2012 Q4	2013 Q1	Percentage Change	Absolute Change
<b>ALL CRIME</b>	1163	1038	879	909	952	<b>4.7%</b>	<b>43</b>

### 2.2 TRENDS

Q1 2013 presents the third quarter in a row whereby offences have remained under 1,000 per quarter and is the third lowest quarter since 2000. In 2009, 2010 and 2011 all quarters (with the exception of Q1 2011) were above 1,000 offences, however despite this it can be seen that offences are steadily increasing from the lowest recorded number in Q3 2012. This can be seen in Figure 3, which shows crime for the last 17 quarters, with Q1 figures highlighted in boxes:

Figure 3: All Crime By Quarters (Q1 2009 – Q1 2013)

### 3. CRIMES AGAINST THE PERSON

#### 3.1 SUMMARY

Crimes Against The Person offences in Q1 2013 **increased** by **+17** offences or **+11.0%** compared to Q4 2012. In comparison to the same period last year (Q1 2012), Q1 2013 has **decreased** by **-15** offences or by **-8.1%**. The total for Q1 2013 was **171** as can be seen in Figure 4:

#### 3.2. TRENDS

In Q1 2013 the long term trend of Crimes Against The Person is **decreasing** with Q1 2013 being the 11<sup>th</sup> consecutive quarter under 200 offences. Robbery has **decreased** (**-1**) and Indecency has also **decreased** (**-5**), however Sexual Assaults have **increased** (**+3**) and Serious Assaults have **increased** (**+1**). A summary of Crimes Against The Person for the last 17 quarters can be seen in Figure 5, with Q1 figures highlighted in boxes:

Figure 5: Crimes Against the Person By Quarters (Q1 2009 – Q1 2013)

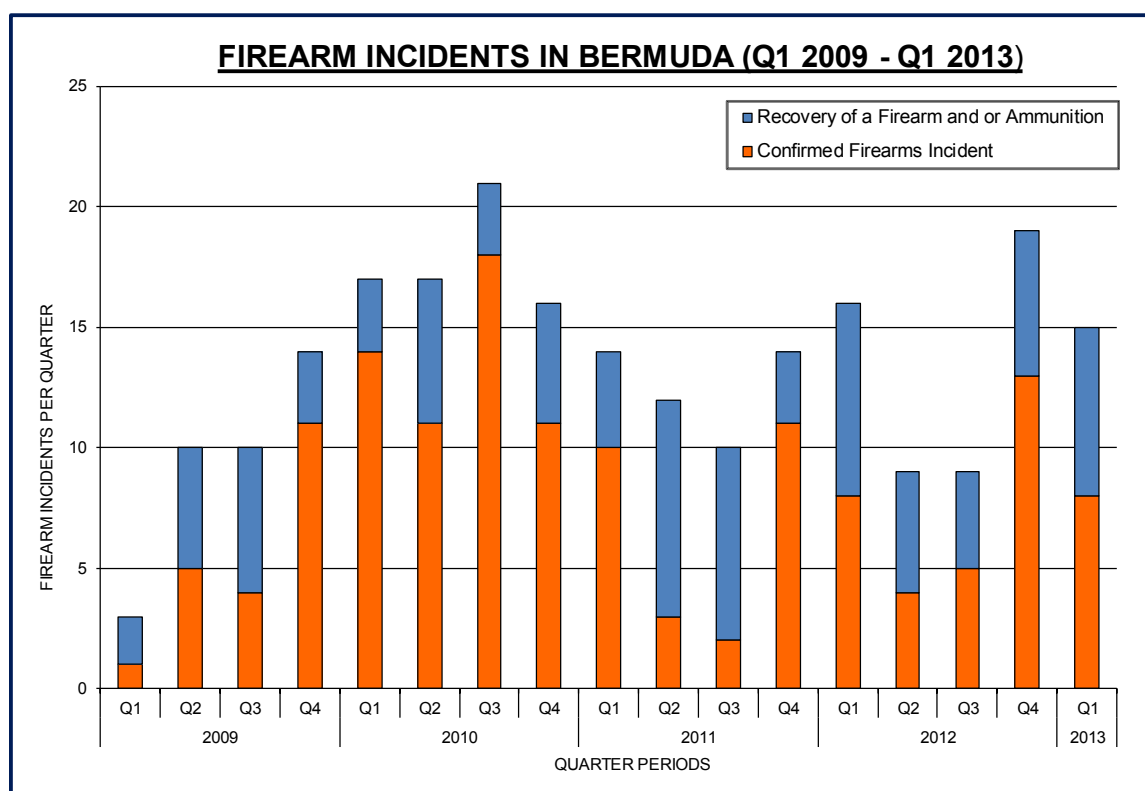

## 4. FIREARM INCIDENTS

Firearm Offences are included within Crimes Against The Community (Section 5); however Firearm Incidents<sup>1</sup> may not necessarily be recorded as offences, as often there is no suspect or even a victim.

### 4.1 SUMMARY

In Q1 2013 there were **15** Firearm Incidents of which **8** were Confirmed Firearm Incidents and **7** were Recovery of a Firearm and or Ammunition. This is a **decrease** in the number recorded in Q4 2012 whereby there were **19** (-4) Firearms Incidents of which **13** (-5) were Confirmed Firearm Incidents and **6** (+1) were Recovery of a Firearm and or Ammunition. A summary of Firearms Incidents for the last 17 quarters can be seen in Figure 6:

Figure 6: Firearm Incidents In Bermuda (Q1 2009 – Q1 2013)

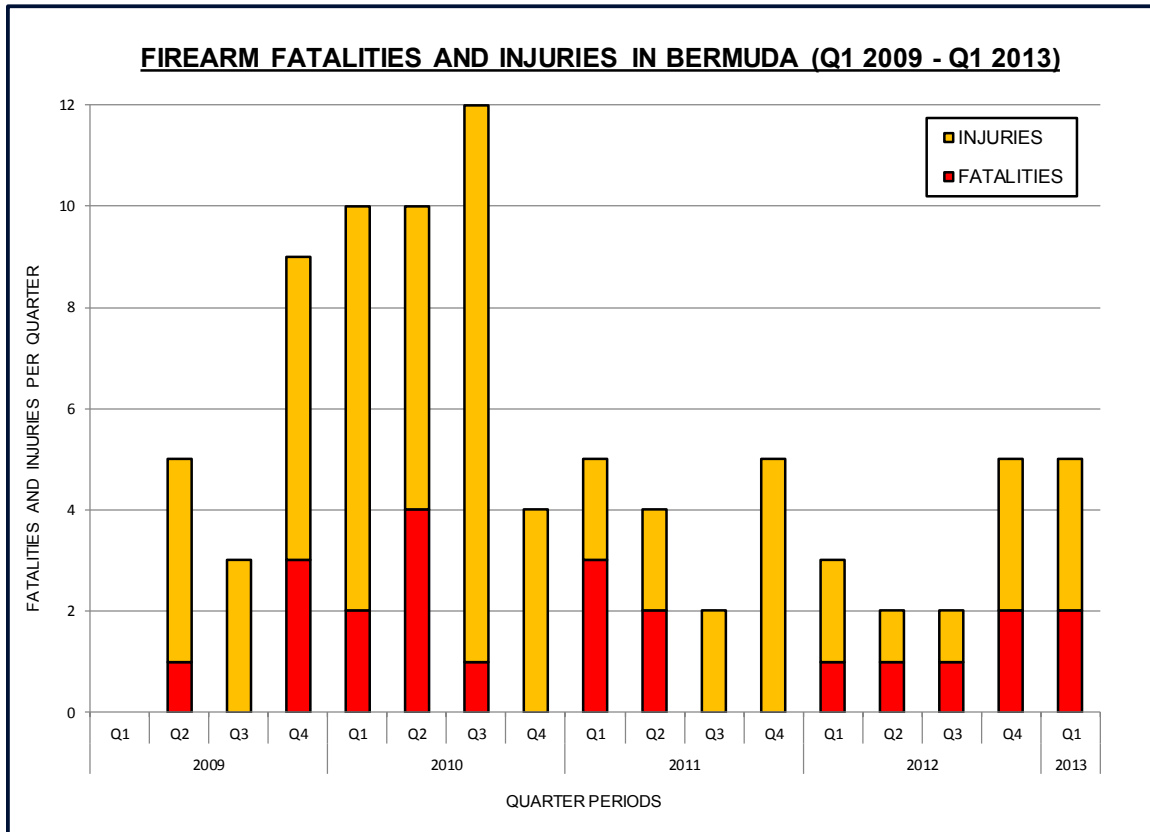

<sup>1</sup> To enable accurate recording, analysis and reporting of firearm incidents, the BPS classifies firearm incidents into 2 categories which are split into **Confirmed** or **Recovery Of A Firearm and Or Ammunition**. An **Confirmed** incident is where a person has been shot (fatally or wounded), a person has been shot at and corroboration is provided by forensic recovery of ballistic material, CCTV footage showing a firearm, reliable witness testimony or a person is charged with a firearms offence connected to the incident, a firearm is used in the commission of a criminal act and corroboration has been obtained, or a report of a firearm discharged and forensic material (bullet casings) have been recovered. A **Recovery Of A Firearm and Or Ammunition** is where a firearm, ammunition or imitation firearm is recovered by police.

#### 4.2 FIREARM TRENDS

In Q1 2013 there were **3** firearms recovered, **2** fatalities and **3** injuries and **5** individuals were arrested for firearms offences, this is the same figures for fatalities and injuries that were recorded in Q4 2012. The total number of persons shot since the dramatic increase of Firearm Incidents in Q1 2009 is now **86**, of which **23** have been fatal shootings. Figure 7 (below) shows firearm fatalities and injuries from Q1 2009 to Q1 2013:

<b>C.A.T.C.</b>	192	200	184	196	143	<b>-27.0%</b>	<b>-53</b>

The majority of areas have shown **decreases**, significantly in Anti-Social Behaviour (**-46** which is attributed to a reduction in the number of Threatening Words and Threatening Behaviour cases reported) and Other Weapon Offences (**-8**), however Firearm Offences have **increased** (**+3**) when compared to Q4 2012. A summary of Crimes Against The Community for the last 17 quarters can be seen in Figure 9, with Q1 figures highlighted in boxes:

Figure 15: Drug Enforcement Activity By Quarters (Q1 2009 – Q1 2013)

### 8.3 Drug Seizures

The Bermuda Police Service continues to work with its partners both locally and overseas to disrupt the trafficking of controlled drugs. These partners include HM Customs Bermuda, U.S. Customs and the U.S. Drug Enforcement Administration. Despite these partnerships, controlled drugs are still entering Bermuda which is evidenced in the number of 'street' level drug seizures. This can be seen in Figure 16, which shows Drug Seizures By Location:

Figure 16: Drug Seizures In Bermuda By Location (Q1 2013)

Location	Number of Seizures
PORT	18
STREET	41
OVERSEAS	8
<b>TOTAL</b>	<b>67</b>

As can be seen in Figure 16, the majority of drugs seized are at street level (**41**) while there were **18** seizures at ports (including LF Wade) and **8** overseas seizures which involved overseas law enforcement agencies, **4** of which were seized in the USA, **3** in Canada and **1** in Aruba.

An estimated total of **11.3kg** of controlled drugs with an estimated street value of **\$1.3 million** has been seized in Q1 2013, with Cannabis Resin the most common drug with **6.4kg** seized at a value of **\$647,102**. Cannabis is the next highest, with **2.7kg** seized at an estimated street value of **\$139,026**. In addition **988g** of Heroin was also seized with an estimated street value of **\$263,753**. The type, weight and value of the drugs seized broken down by Port, Street and Overseas seizures can be seen below in Figure 17:

Figure 17: Drug Seizures by Location, Weight and Street Value (Q1 2013)

	STREET		PORT		OVERSEAS		TOTAL	TOTAL

(All weights are in grams)

In comparison to Q4 2012, the value of drugs seized in Q1 2013 has decreased, with an estimated street value of **\$1.3 million** compared to **\$7.7 million**. This is due to the decrease in seizures of Crack Cocaine and Cannabis at street and port level. However the large amount seized in Q4 2012 can be attributed mainly to one seizure of Cannabis weighing 119.6kg with an estimated street value of **\$5.9 million**.

They provide an indication of police activity, particularly regarding the number of highly visible patrols in the community.
