Rare Bird is the true story of the Cahow bird resurrected on the island paradise of Bermuda at the dawn of its development, returning to teach humanity an important lesson in perseverance. Threatened by manmade development, invasive species, and the pesticide DDT, the Cahow has been on the brink of extinction for over 4 centuries. This story about a man, a ghost bird and a struggle for survival takes a dramatic turn when the bird faces a greater threat: global warming

This event is FREE to the public.
