Executive Summary

The past two years of growth for the Bermuda tourism industry show a clear comeback for this important economic sector.

Thanks to the partnership of a wide array of stakeholders, the Bermuda Tourism Authority has guided industry performance to monthly year-over-year growth for 23 of the past 24 months in leisure air arrivals. The anomaly is September 2017, attributed to an exceptionally active Atlantic Hurricane Season. More importantly, the island's tourism industry experienced eight consecutive quarters of year-over-year growth in leisure air visitor spending. Cruise visitor spending saw more modest gains. However, a steadily improving air visitor spending number is more important to the industry's development because air visitors spend, on average, at least ten times more than cruise passengers when they visit Bermuda.

The total estimated amount directly injected into the island's economy by visitors in 2017 is \$431 million, which represents a sizeable 20% increase over the previous year. Meantime, the total amount of visitors in 2017 reached 692,947, the highest number in recorded history. Every key performance indicator finished pointing up at the end of 2017 when compared to the year before:

Air leisure spending up 22.5%
Cruise spending up 7.6%
Leisure air arrivals up 11%
Hotel occupancy up 9%

Furthermore, the number of visitors under 45 years-old continues to power the comeback. About 83% of the growth in leisure air arrivals in 2017 is from visitors under the age of 45. Align those visitor demographic trends with the new hotel inventory coming online in 2019 and beyond, there is reason for optimism as the island moves into the next five years of its tourism resurgence.

This year-end report, prepared by the Research and Business Intelligence team of the Bermuda Tourism Authority, presents the industry's data along with some context to help persons in the tourism industry mark our collective progress over the past year and set a course for the future.

Canadian Comeback

In 2017, Canadian leisure air visitors increased by 19.3% or 2,555 additional visitors vs 2016. While not yet back to the levels of 2014, air leisure visitation has increased. Given BTA's new strategy in Canada for 2018, we expect this increase to continue.

Air Visitors: Younger Demo

With a focused effort over the last two years to attract more adventure seekers and experience enthusiasts and develop corresponding onisland product, Bermuda has grown the number of young visitors to the island while still retaining older visitors. Of the growth seen in 2017 leisure air visitors, 83% was in those under the age of 45.

For further information on Visitors by Age, please reference pg. 28

Steadily Increasing Airlift

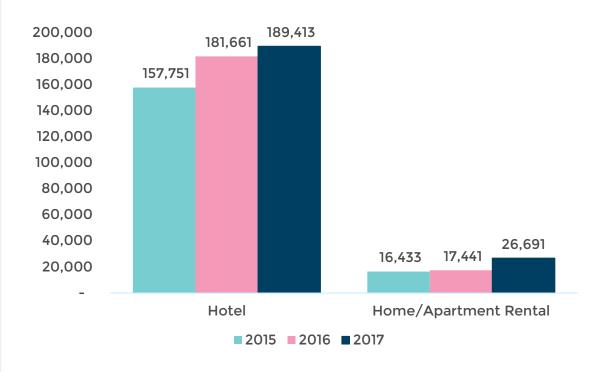

Over the last three years we have seen not only an increase in capacity but also the number of seats sold to meet the capacity increase. With the development of a new airport terminal under way, we expect to add additional capacity in the future as well.

Growth Across Accommodation Types

Home rentals have opened Bermuda up to a new kind of visitor with a 53% increase year-over-year. The number of visitors choosing hotels also continues to rise, growing 4% year-over-year.

For further insight on Air Visitors by Accommodation Type, please reference pg. 27

Yacht Vessel Statistics

| Yacht Vessel Length | 2015 | 2016 | 2017 | #Δ vs 2016 | % Δ vs 2016 |
|--------------------------------|------|------|-------|------------|-------------|
| 30 meters (97ft) and below | 659 | 746 | 879 | 133 | 17.8% |
| 30m – 45 meters (98ft – 147ft) | 35 | 26 | 72 | 46 | 176.9% |
| 45 meters (148 ft) and above | 35 | 42 | 71 | 29 | 69.0% |
| Total | 729 | 814 | 1,022 | 208 | 25.6% |

There is no doubt 2017 will be considered a landmark year for sailing and yachting in Bermuda. On this page we look at vessels by length. Over 30 meters is considered to be a superyacht. While the 35th America's Cup took place in June, most yachts arrived during May in preparation.

While the total number of yachts grew by 26%, vessels in the 30m-45m category grew by 177% and vessels 45m and above grew by 69% year-over-year.

DMA= Designated Market Area (Nielsen Media Research)

Air Leisure Visitor Average Length of Stay

The average leisure air visitor length of stay has increased slightly overall year-over-year. This small increase can be attributed to the increase in visitors length of stay from countries other than the US, Canada or the UK which all saw small YOY decreases in length of stay.

Hotels

In 2017, Bermuda's hotel inventory at year-end increased 3% with 75 additional rooms. The number of properties remained flat. Occupancy for the full year increased 9.2% or 5.3 percentage points over 2016 to 63.1%. Average Daily Rate (ADR) for 2017 increased 9.4%. Revenue per Available Room (RevPAR) increased 19.5% year-over-year.

BERMUDA

In 2017, the Bermuda Tourism Authority changed the methodology of tracking home rentals to include data provided by Airbnb. While many home rentals are cross listed, we feel Airbnb is the most comprehensive within the space and Airbnb is now providing the BTA with regular statistics. The map shows the distribution of these listings by parish.

Estimated Average Per Person Visitor Spending

Average per person spending for air visitors increased year-over-year in all categories. The largest increases were seen in business visitors. On average, air visitors spent \$137.42 or 10.9% more than in 2016. Cruise visitor per person spending increased in 2017 vs 2016 by \$2.66 or 2.4% on average.

Source: TRA Air and Cruise Exit Surveys

Total estimated air visitor spending in 2017 increased from \$313.9 million in 2016 to \$383.2 million in 2017.

Air Leisure visitor spending was up \$50 million or 22.5% year-over-year. Cruise visitor spending increased from \$44.5 million in 2016 to \$47.9 million in 2017.

Tourism Industry Outlook 2018

Harnessing the Momentum; Maintaining Growth

In 2018 the Bermuda Tourism Authority will continue its efforts toward harnessing the momentum clearly underway in the island's resurgent tourism economy. Last year was the highest volume of total visitors in recorded history for Bermuda with 692,947 arrivals across air, cruise and yacht segments. With that level of visitation, it's not surprising that all key performance indicators finished higher year-over-year:

- Air leisure spending surged 22.5 percent;
- Cruise spending up 7.6 percent;
- · Leisure air arrivals jumped 11 percent;
- And hotel occupancy climbed 9 percent to finish at 63 percent for the year.

As Bermuda heads into 2018, the health of its tourism industry is significantly improved - particularly when compared to the situation just two years ago.

- In 2017, leisure air visitor spending was up 51 percent when compared to 2015
- In 2017, leisure air visitor arrivals was up 30 percent when compared to 2015

Additionally, and very importantly, Bermuda enjoys higher consumer awareness – perhaps the highest in a generation. That awareness has resulted in greater interest, evidenced through, among other things, visits to the GoToBermuda.com website. Putting on the 35th America's Cup, undoubtedly played a sizeable role in putting Bermuda top of mind. This was helpful not only because the island's people successfully hosted the event, but because the event was leveraged to generate media buzz far beyond the world of sailing.

For example, Bermuda was on the "best list" of scores of mainstream and travel trade publications at the start of 2017. Additionally, Bermuda's refreshed brand, which rolled out in 2016, resonated with the Bermuda Tourism Authority's target audiences and that showed up in the 2017 performance - exhibited by the strong growth from younger visitors.

For 2018, the Bermuda Tourism Authority's goal is to ensure many of these growth-enabling trends are maintained without the advantage of an America's Cup event to impact in-year demand. The legacy impact is real, although we have work to do to convert higher interest into actual visitors. Furthermore, thanks to a more robust visitor events calendar, a greater selection of high quality experiences on-island and improved airlift, it's expected the elevated numbers of younger air visitors, increased spending and higher arrival volumes achieved in 2017 can be matched in 2018.

This will not be an easy feat, however.

One of the challenges to matching last year's performance will be the availability of hotel inventory in the first quarter of 2018. Six local properties have a large portion – or indeed its full hotel inventory – off line for renovations. It represents about 12 percent of the country's total hotel capacity in the first quarter. This is a blessing and a curse. The good news is that the property upgrades are exactly what the industry needs; our product will undoubtedly be more attractive to travellers post-refurbishment (GenCom for example is investing \$25 million in its property at Rosewood Bermuda). The bad news is that the reduction in inventory makes it more difficult to keep pace with 2017.

Overall, growing hotel inventory has been a struggle for Bermuda over the past few decades and the Bermuda Tourism Authority expects to see tangible evidence of a turnaround in this area in 2018. By New Year's Day in 2018, Azura, Caroline Bay and the St. George's Resort all had shovels in the ground, and in some cases, structures taking shape. When their work is completed Bermuda will have 240 more hotel rooms to join up with a growing vacation rental inventory which surged more than 90 percent in 2017.

Above all else, the track record over the past three years for the Bermuda tourism industry is the greatest reason for an optimistic 2018 outlook. The progress has been tremendous. Bermuda's tourism industry has been on a path for growth since 2015 after decades of decline; the America's Cup helped to accelerate the growth trajectory. In 2018, if Bermuda is able to keep pace with the landmark year in 2017, she will maintain the industry's glide path to resurgence.

Research Methodology

The Bermuda Tourism Authority relies on data from many stakeholders to compile this report. Our primary source of data for this report is the Visitor Data Card or "pink card" that all visitors to Bermuda fill out when arriving by air or yacht. This form is collected in cooperation with the Department of Immigration and H.M. Customs. Because Bermuda is an island, it allows us the opportunity to collect one of the most robust sets of data from visitors upon arrival. Air and yacht visitor data card counts are reconciled against daily counts by Immigration and Customs officers to ensure accuracy.

A list of additional data sources for this report are listed below:

- 1. Ministry of Economic Development & Tourism Hotel inventory (properties and rooms)
- 2. Department of Immigration Border Management System data
- 3. H.M. Customs Cruise and yacht arrival statistics
- 4. Department of Marine & Ports Yacht vessel arrival statistics
- 5. Bermuda Skyport Corporation, Ltd. Air statistics (capacity, seats sold, load factors)
- 6. Cedar Aviation Services, Ltd. Private jet arrivals
- 7. Total Research Associates, Ltd. (contracted by the BTA) Expenditure estimates
- 8. STR, Inc. Bermuda market hotel occupancy, ADR and RevPAR statistics
- 9. Airbnb Vacation rental statistics

The Bermuda Tourism Authority would like to thank all partners and stakeholders that provide data for this and other reports. Any queries/comments can be directed to:
